

Families in the age of Artificial Intelligence:

Rights, Inclusion and Empowerment

17 MARCH 2026
ATHENS, GREECE

Families in the age of Artificial Intelligence: Rights, inclusion and empowerment

17 March 2026
Athens, Greece

Background

As artificial intelligence becomes increasingly embedded in daily life, its impact on families is growing, shaping how they work, learn, care, communicate, and stay safe online.

Co-hosted by COFACE Families Europe and KMOP, this expert meeting will convene researchers, policymakers, tech experts and civil society to discuss the impact of Artificial intelligence on family life and inclusion, with a focus on rights, equity and empowerment in the digital age.

Using a multi-generation approach looking at children and adults, we aim to collect information from COFACE members and partners about family experiences at home, in the labour market, in schools and in the online environment, while highlighting the transformative role of AI and looking at both risks and opportunities.

The programme will aim to highlight the state of play of artificial intelligence today, while also looking towards the future and its impact on families.

Key areas to be explored during breakout sessions are the following:

- 1. Future of work: what risks and opportunities for AI-exposed workers?**
- 2. Online safety and navigating AI in digital environments**
- 3. Financial inclusion and consumer rights in an AI world**
- 4. AI for families in migration: threat or opportunity?**
- 5. Leveraging AI for inclusive care and social protection**
- 6. AI in education: enhancing equity and respecting children's rights**

Together, we will identify the challenges for families of today and consider the building blocks of a family-friendly digital future, one where AI serves as a tool for social inclusion, equity, and well-being for all families.

Working languages: English and Greek.

Co-funded by
the European Union

Co-funded by the EaSI strand of the ESF+ programme. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the granting authority can be held responsible for them.
